**WROOM FURNITURE is a new Danish brand that designs and develops furniture for professional use. The idea behind the project arose when founder and owner Anders Bach-Sørensen acquired a motorcycle designed by the Copenhagen Custom Workshop WRENCHMONKEES. Anders was fascinated by the design expression and was immediately convinced that the aesthetic and design approach could be transformed into a furniture series, which with its own expression would be unique and contribute a new design language to the selection of outdoor furniture.**

**Nicholas Bech is the designer behind WROOM's first series WR01. Nicholas was the co-founder and creative driving force behind WRENCHMONKEES.**
